Agency CDPHE

Purpose of Contact Use of previous fill material from IHSS 500-2

Discussion

There is a large quantity of fill material associated with Building 551 located within IHSS Group 500-2. In consultation with CDPHE, samples of the fill material were collected on a statistical basis from the fill material within the IHSS group and analyzed for radionuclides, metals and volatile organic compounds.

The results were recently received and are all below wildlife refuge worker action levels. Even though no longer applicable, results are also below the ecological receptor action levels.

Based on this, it was agreed that the material can be used as needed Site-wide for fill material.
